

**Main features**

- **Cloud Ready, Virtualizable**
- SD / HD / 4K UHD HDR
- **Up to 32 channels**
- Detects **aspect ratio, black, silence, video freeze**
- **SDI, Analog, HDMI, ASI, HTTP & IP (DVB, SMPTE 2022-6/7, SMPTE ST2110) Inputs**

**Features**

- **SNMP, REST** monitoring and control
- Video, up to 8 stereo tracks and subtitles (multiple pages)
- 24/7 or scheduled recordings
- Measure the **loudness** and audio level
- AsRuns, EPGs, conductors, audience import with XML metadata if available
- Burn time and/or logo onto the video
- Intuitive **TimeLine** Browsing
- Integrated DASH Player
- Watchdog

**Options**

- Dolby Digital®, Dolby Digital Plus®
- **Mosaic** Video Tiling View for Multiviewer
- Detects **watermark** (MediaMetrics), **STCE35/104**

## Compliance Recording Platform

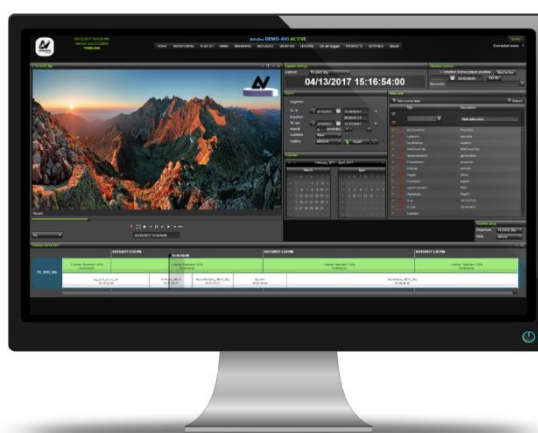

Thanks to its long experience of broadcast operation and to its perfect mastering of IT and broadcast technologies, Anyware Video has released a solution offering all the premium channel functionalities, the reliability and the right operational ergonomics, in a compact powerful and cost-effective design.

Our compliance recording “Pige Antenne” solution is a result of 20 years of Research and Development that has become a point of reference in its field. Widely deployed and recording today more than 800 channels throughout the world, Pige Antenne can record, store and replay any kind of broadcast format.

It can be used for media monitoring in the control room or remotely. It is also used by national regulation organizations or channels that wish to archive their contents for legal or advertising verification.

- Complies with every country’s regulatory requirement
- Monitoring with a Multiviewer Interface
- Compliance Recording and Legal Archiving of the Broadcasted Channel
- Easy share your extracted segments
- Watermarking monitoring (Nielsen®, KantarMedia®, Nagra)
- Automated and long-term multi-programming of recordings Interface

**Pige Antenne Anyware Video: A durable and reliable solution!**  
(measured reliability> 99.9% over more than 10 years)

## Anywhere Video Pige Antenne Configurations

### Channel Configurations (SDI and/or IP)

- Pige Antenne 2 SD/HD channels
- Pige Antenne 4 SD/HD channels
- Pige Antenne 8 SD/HD channels
- Pige Antenne 16 SD/HD IP channels
- Pige Antenne 32 SD/HD IP channels
- Pige Antenne 1 UHD channel
- Pige Antenne 2 UHD channels

### On-board Storage Configurations

- 90 days @1.2Mb/s
- \*Additional storage available upon request.*

## Codec/Wrapper Support

### Resolution

- SD (720i)
- HD (1080i, 1080p, 720p)
- UHD (2160p)

### Supported input codecs

- H265, H264, MPEG2
- AAC, Mpeg1LayerII, Dolby Digital+

### Frame rates

- 24, 25, 30, 30DF, 50, 60, 60DF

## General Specifications

### Baseband input

- SDI, HDMI, Analog

### IP input

- Multicast, unicast
- SMPTE 2022-6/7, SMPTE ST2110 (ST2110-10, ST 2110-20, ST 2110-30, ST 2110-40), SMPTE ST 2110-21, SMPTE ST 2110-31

### Video specifications

- SD-SDI: SMPTE 259M, ITU-R601 line component, 10-bit
- HD-SDI: SMPTE 292M, 10-bit
- IP: DVB, SMPTE 2022-6/7, SMPTE 2110-10/20/21/30/31/40
- 75 Ohms BNC
- ITU-R BT 601 (data and electrical)

### Reference Genlock

- Analog blackburst reference (tri-level or bi-level), SDI input as reference or free running mode.
- External termination with LOOP connector
- Flywheel on genlock.

### Audio specifications

- Up to 16 audio tracks
- Input: 48 kHz, 16-bit, 20-bit or 24-bits digital audio PCM
- Audio clock genlocked to video reference in accordance with SMPTE 272M and AES11-1997

### Compressed audio types

- Any video clip with supported audio format can be played seamlessly back-to-back
- Dolby-E pass-through.

### Timecode

- LTC SMPTE 12M

### Redundancy

- Redundant power supplies
- RAID1 for system drives, RAID5/6 for data drivers
- Hot spares drives

### Monitoring

- SNMP

### Connectivity

- 100/1000/10000 Base-T Ethernet ports

### File exchange

- CIFS, SMB, (S)FTP

### Server

- Rackable unit with redundant power supply
- Watchdog

### Control

- Web interface - Anywhere Video All-In-One including full localization of the user interfaces into English, French, German, Arabic, Spanish, Japanese.
